 Maintenance Window Hours:  
Sat 9pm - Sun 1am  
Sun 9pm - Mon 1am  
All times PST

Eagle CCU and our service partners performs non-emergency, disruptive or high-risk maintenance activities during regular maintenance windows in order to help ensure long-term stability and security. Regular maintenance windows aid planning while reducing the amount of disruptive maintenance throughout the year. In the event of an emergency where it is deemed too risky to wait until the next window, an out-of-cycle maintenance window will be declared. Maintenance windows occur roughly every two weeks from 9pm - 1am PST both Saturday and Sunday nights - avoiding holidays and month-end. The technical teams follow a well-defined policy & procedure that is approved by Eagle CCU Management and our service partners.

The Maintenance Calendar is available on the customer portal. As with any change, there is a level of risk associated with maintenance performed in production environments. As such, unanticipated interruptions could occur during the maintenance windows.
